

### Coffee Chairman Scores Report Of King Absence

"People in the 17th Congressional District probably would be more concerned over losing their car than their country," Harry Harris, chairman of the non-partisan committee to elect Tom Coffee to Congress in the 17th Congressional District, said yesterday.

Harris, at the committee's headquarters at 635 S. La Brea Ave., added,

"I cannot emphasize enough the importance of every eligible person desiring to vote on Nov. 8, register before Sept. 15. Though we are not yet in danger of losing our great country from within due to weak representation, there is still too much apathy by American citizens across the United States.

"COMPLACENCY by the public induces indifferent and irresponsible representation such as that of the incumbent Congressman, who devises methods of spending his constituents' money to benefit special interests in or out of his district.

"Recently Mr. King publicly stated that he would actively campaign for his party's presidential ticket outside of his 17th Congressional District because he felt there was no reason to appear here. That isn't news. He hasn't appeared in public in this district for the past eight years, though his constituents continue to ask where he stands on several vital issues.

"THREE SERVICE clubs who desired to hear both sides have postponed speaking engagements for our candidate because they could not locate Mr. King or a representative to allow equal time to a future date.

"Any Congressional Representative elected by the people, regardless of party, should never feel his job is guaranteed. All citizens should receive the caliber of representation they are entitled to and pay heavily for with taxes. Mr. King apparently believes the public will continue marking an 'X' after his name without any effort on his part. It is time for a change when our Congressman takes this attitude.

"DEMOCRATS and Republicans alike should vote for a qualified man who will reactivate representation in this district; not elect someone who pacifies the working man in his district with an empty form letter and continues carrying out special favors for certain high pressure groups who hold Mr. King under obligation.

"Voters should take the time to examine and compare the two platforms of the opposing candidates, the judgment in voting records, and then let their conscience be their voting guide.

"NUMEROUS CIVIC leaders, union officials, and school teachers have endorsed the candidate, Tom Coffee, for Congress," concluded Harris.

Coffee is an electrical engineer of Westchester. He is a graduate of the University of South Carolina and the University of Southern California. He is a family man with four children, a member of the Westchester Methodist Church, active in YMCA activities, and a member of the American Legion. He is also a veteran and a Major from World War II.
